The *International Journal of Medical Students* (IJMS) is a peer-reviewed, open-access journal created to share the scientific production and experiences of medical students worldwide. Our objective is to be the primary diffusion platform for medical students, using standards that follow the process of scientific publication.

The journal receives contributions of previously unpublished Original Articles, Short Communications, Reviews, Case Reports, Interviews, Experiences and Letters, which are reviewed by experts (Peer-Reviewers) who have previously published similar research. This supports the quality and validity of the manuscripts. The review time delay in most cases has been two to four months depending on the diligence of peer-reviewers and authors.

The journal and the *Editorial Board* are not responsible for the opinions expressed by the Authors of all published material, nor do these represent the official policy or medical opinion of the journal or the institutions with which they are affiliated, unless otherwise stated.

The *International Journal of Medical Students* is published triannually on behalf of the *Executive Committee of the International Journal of Medical Students*. Any publication, dissemination or distribution of the information included in the journal is permitted only if the source is cited (*Int J Med Students*).

All full-text articles are available at: [www.ijms.info](http://www.ijms.info)
e-ISSN 2076-6927 (Online)

The *International Journal of Medical Students* is licensed under a *Creative Commons Attribution-NonCommercial-NoDerivs 3.0 Unported License*.

Printed in Rochester, MN, USA.
Table of Contents

Editorials
Strengthening the Reporting of Observational Studies in Epidemiology (STROBE) in the International Journal of Medical Students
Aisha Gharaibeh, Sahil Koppikar, Francisco J. Bonilla-Escobar.

Poster Presentations: A Presenting Opportunity in Conferences for Medical Students
Hulegar A. Abhishekh, Neeraj Tandon, Sunil Rangarajan, Aisha Gharaibeh, Francisco J. Bonilla-Escobar.

Original Articles
Correlation of Fine Needle Aspiration Cytology and Histopathology Diagnosis in the Evaluation of Breast Lumps
Adnan Khan, Raza Jamali, Muneeb Jan, Maria Tasneem.

Attitude towards New Packaging to Reduce Condom-carrying Embarrassment among Thai Youth, A Cross-sectional Study
Apinut Wongkietkachorn, Kunathip Nissaipan, Narin Hiransuthikul.

Sub-tenon Anaesthesia versus Intracameral Anaesthesia in Patients Undergoing Cataract Extraction: A Comparative Study of the Level of Pain, Visual Perception and Anxiety
Mushawiahti Mustapha, Muhammad Hazzril Hamzah, Soon Ken Chow, Nur Syuhada Zulkifli, Zalikha Abdul Latiff, Diana Melissa Dualim, Su Gaik Cheah, Mae Lynn Catherine Bastion.

Short Communication
Awareness and Practices of Non-Pharmacological Approaches for Management of Hypertension in a Geriatric Population
